

Scott J. Patlovich, MPH, DrPH, CBSPH, CHMM

Director of Safety, Health, Environment and Risk Management The University of Texas Health Science Center at Houston (UTHealth)

Dr. Scott Patlovich is director of Safety, Health, Environment and Risk Management at UTHealth. In this capacity, Dr. Patlovich oversees a department of nearly 30 safety professionals who provide health and safety services and who manage hazardous wastes generated from the institution's biomedical research laboratories and clinical operations. Dr. Patlovich serves as a subject matter expert, co-investigator, and instructor for BIDTI and as a subject matter expert and instructor for the Texas-Utah Consortium. Dr. Patlovich holds a doctorate of public health in occupational and environmental health sciences (concentration in epidemiology and disease control) from UTHealth School of Public Health and a master of public health in occupational and environmental health sciences (concentration in industrial hygiene) from the same school.

He is a certified biological safety professional, as recognized by the American Biological Safety Association; a specialist microbiologist in biological safety microbiology, as recognized by the National Registry of Certified Microbiologists; and a certified hazardous materials manager, as recognized by the Institute of Hazardous Materials Management.
