

Biosafety/Biosecurity...the Canadian way! Eh!

Tom Walus

President – Canadian Association for Biological Safety/L'Association Canadienne Pour La Sécurité Biologique (CABS-ACSB)

May 29th, 2019
12:00PM – 1:00PM
lunch provided

School of Public Health
RAS E605
1200 Pressler Street
Houston, Texas 77030

In Canada, any work with human pathogens or toxins, falls under the Human Pathogens and Toxins Act (HPTA) which is federal legislation. Along with the HPTA are the Human Pathogen and Toxin Regulations (HPTR) and the Canadian Biosafety Standards (CBS).

This presentation will discuss the impact of the HPTA, HPTR and CBS on biosafety and biosecurity in Canada and how this could be a framework internationally.
