

Publications Authored by P2R Consortium Personnel Since Inception

Updated Summer 2026

P2R Consortium personnel add to the body of scientific knowledge through activities supported by sources external to the U45 grant. Even so, many of these publications were inspired by P2R Consortium activities. Further, when viewed collectively, the body of work listed below represents the foundation on which the P2R Consortium develops and delivers training.

Consortium authors – bolded for easy visibility – include Rachel Brown, Sadie Conway, Robert (Bob) Emery, Shawn Gibbs, Janet Gutierrez, Matthew Hughes, Kristen King, Soyoung Kwon, Aurora Le, Scott Patlovich, and Janelle Rios.
